

## Policies Regarding the play of games

1. Each player must have a valid OASA player pass (the player **MUST** not be allowed to play without a current card, and the card **MUST** be present at the match before the player is allowed to play!!). The OASA card is the **ONLY** acceptable identification. A driver license or anything else is absolutely not acceptable. Player cards from other states are not allowed in league games.
  
2. Unlimited substitutions are permitted on **any** dead ball, at the referee's discretion. (This means any throw-in, free kick, goal kick, corner kick, drop ball, penalty kick, injury, carding or any other stoppage of play). Less formal games such as indoor or small-sided games may use substitutions “on the fly” or while play is ongoing. More formal games may limit the number of substitutes allowed (such as 3 per game for full international games).
  
3. Unless the league or indoor center has other methods of roster control approved by OASA, each team must fill out an OASA match roster form, or provide a typed list, with the following information for each player:
  - a. OASA player card number,
  - b. Expiration Date,
  - c. Player's name.This must be turned in to the referee prior to each game. Referees are instructed to not begin a game until you have a completed roster from each team.
